Technorama Ulm – The spare parts market in Europa

At the traditional Technorama spare parts market in Ulm, mechanics and collectors will once again indulge their passion for classic vehicles on May 2nd and 3rd. Around 850 international vendors, including some from Finland and Spain, will be offering original parts for classic and vintage cars, thousands of spare parts, accessories, and much more. True to the motto "seek and you shall find," over 20,000 classic car enthusiasts will flock to Ulm to enjoy the great atmosphere, the diverse selection, and the opportunity to meet like-minded people.

This event offers original parts for classic and vintage cars, high-quality reproduction parts, restoration materials, literature and documentation, miniature models, and a wide range of accessories. Whether you're looking for engines, body and chrome parts, interior components, or something special – like a specialist for fuel taps or motorcycle teams – mechanics, restorers, and enthusiasts are guaranteed to find the right part in the 40,000 square meter exhibition space. The Technorama is also characterized by its extensive selection of restored and unrestored classic and modern classic cars and motorcycles. Expert dealers from all over Europe offer personalized advice, providing in-depth knowledge of models, model years, and manufacturers. Numerous classic car clubs, associations, and groups share information about their vehicles, technological milestones, and activities, presenting dream cars and inviting visitors to engage in conversation. Technorama is synonymous with informal discussions among like-minded enthusiasts, meetings with fellow classic car lovers, and a diverse range of offerings from classic car experts.

The marketplace for collector vehicles in the Danube Hall impresses every year with its diverse array of vehicles, from everyday classics and elegant luxury models to restoration projects and rare collector's items. This year, several vehicles are

available at auction prices, including nearly new tractors. In Hall 7, enthusiasts of historic agricultural machinery will find experienced exhibitors and dedicated clubs, and the tractor and agricultural machinery meet guarantees free admission. The classic vintage car meeting offers free entry for vehicles up to model year 1965, as long as space is available, and complements the Technorama offerings.

The opening hours are on Saturday from 9 am to 6 pm and on Sunday from 9 am to 4 pm. The day ticket costs 15 euros, with a discount 12 euros. You are welcome to visit us at www.technorama.de.
